Hello, I'm

Hari Venkat

CSE - AI & ML Student

Hari Venkat

I am a first-year CSE-AIML student interested in Python, Web Development and Artificial Intelligence.

My Projects | Contact Me

About Me

I am a first-year Computer Science and Engineering student specializing in Artificial Intelligence and Machine Learning.

I have been learning Python and Web Development for around 4 months. I started with programming basics and gradually started creating simple websites using HTML and CSS.

I am interested in learning new technologies, improving my coding skills and understanding Artificial Intelligence.

04+
Months
Learning

04
Skills
Python • HTML • CSS • AI

My Skills

Python
Python basics, loops, conditions, functions, lists, tuples and problem solving.

HTML
Creating webpages using headings, sections, links, tables, forms and semantic elements.

CSS
Working with colors, layouts, flexbox, responsive design and website styling.

AI / ML
Basic understanding of Artificial Intelligence, Machine Learning and Generative AI.

My Projects

01

Personal Portfolio

A simple personal portfolio website created using HTML and CSS to display my profile, skills and projects.

HTML | CSS

02

Online Learning Platform

A simple educational website interface with course cards, instructors and learning content.

HTML | CSS

03

Python Programs

A collection of small Python programs created while learning programming fundamentals.

Python

Education

2026 - Present

B.Tech - CSE (AI & ML)

Dr. RVR & NRI University

Currently pursuing my first year of Computer Science and Engineering with specialization in Artificial Intelligence and Machine Learning.

Completed

Higher Secondary Education

Completed my previous education and started my journey into Computer Science and technology.

My Hobbies

Web Designing
Creating and trying different website designs.

Learning Technology
Learning new programming concepts and tools.

Problem Solving
Practicing Python programs and logical problems.

Exploring AI
Learning about AI and Generative AI tools.

Achievements & Goals

Python Fundamentals
Built a basic foundation in Python through regular practice.

Web Development
Started creating webpages using HTML and CSS.

Learning AI
Started exploring Artificial Intelligence and Generative AI.

My Resume

You can view my resume to know more about my education, skills and projects.

</> **Web Development**
HTML, CSS, JavaScript and responsive design.

PY **Programming**
Python fundamentals and problem solving.

UI **UI / UX Design**
Layouts, design principles and user experience.

DS **Data Skills**
Data basics, analysis and visualization.

Popular courses

Short lessons with clear learning objectives.

24 Lessons

BEGINNER

HTML & CSS Essentials

Learn the basics of creating clean and responsive websites.

AK **Ananya Kumar**
Web Development Instructor

Continue Learning

30 Lessons

BEGINNER

Python Programming

Understand variables, conditions, loops, functions and lists.

RS **Rahul Sharma**
Python Instructor

Continue Learning

18 Lessons

INTERMEDIATE

UI Design Fundamentals

Create better layouts using spacing, typography and visual hierarchy.

PM **Priya Menon**
UI/UX Instructor

What you will learn

Every course focuses on practical learning.

Course learning objectives

- Understand important concepts with simple examples.
- Practice each topic through small activities.
- Create small projects using the concepts learned.
- Build confidence to continue with advanced topics.

Meet your instructors

AK

Ananya Kumar

Web Development Mentor

Focuses on beginner-friendly HTML, CSS and responsive web development lessons.

About LearnHub

LearnHub is designed around a simple idea: learning should be clear, organized and easy to follow. Students can choose a course, watch lessons and practice what they learn.
